TABLE OF CONTENTS

<u>Table No.</u>	<u>Page No.</u>
Highlights	3
1. Federal order minimum Class and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, and butterfat differentials, April	4
2. Federal order minimum Class I and blend prices for milk of 3.5 percent butterfat content, f.o.b. market or other indicated point, January-April averages	6
3. Number of producers delivering milk to handlers regulated under Federal orders, total deliveries, and average daily deliveries per producer, April	8
4. Producer milk deliveries used in Class I and gross Class I sales by handlers regulated under Federal orders, April	10
5. Producer milk deliveries to handlers regulated under Federal orders and deliveries used in Class I January-April	12
6. Total fluid items, whole milk, skim milk items, milk and cream mixtures, and cream sold in marketing areas defined by Federal milk orders, for markets where such information is available, March, with comparisons	14
7. Federal milk order Class I formula price information, April	18
8. Prices and economic indexes used in Federal milk order formulas to determine April prices, with comparisons	20
9. Federal order base and excess prices for milk of 3.5 percent butterfat content, April	21
10. Seasonal incentive fund excluded under various Federal milk orders, April	21
11. Filled and imitation milk sales in Federal milk order markets, February, March, and April 1968	21
Major order actions, April	22

FEDERAL MILK ORDER MARKET STATISTICS

HighlightsAPRIL 1968

Producer Deliveries. A total of 126,351 producers delivered 4.5 billion pounds of milk to regulated handlers in 71 comparable markets during April 1968. This is 0.4 percent below producer deliveries in April 1967. Average daily delivery per producer increased from 1,146 pounds in April 1967 to 1,181 pounds in April of this year. Producer numbers, producer deliveries, average butterfat percentages, and average daily deliveries per producer for individual markets are shown on table 3.

Producer Deliveries Used in Class I. The volume of producer deliveries used in Class I in 71 markets increased 2.0 percent from last year, to a total of 2.7 billion pounds for the month of April 1968. At least part of the increase in April's Class I sales is explained by the fact that there were five Sundays in April 1967 as compared to four during this April. Very little milk is sold by handlers on Sunday.

Gross Class I sales, which comprise total Class I sales by regulated handlers, in-and-out of defined marketing areas, increased 2.2 percent in the 71 markets for the month of April.

Percentages of Producer Deliveries Used in Class I. The average utilization percentage for April was 61 percent, up from 59 percent for April 1967. Forty-two markets showed an increase in the utilization percentage, 5 showed no change, and the remaining 24 markets showed a decrease (See table 4).

Minimum Prices. The weighted average Class I price paid by handlers in the 71 markets for 3.5 percent milk was \$5.90 per hundredweight, 29 cents higher than the \$5.61 per hundredweight price in April 1967. Minimum Class I prices for April were higher in 68 markets and lower in the remaining 3 markets.

Producers in the 71 markets received a weighted average blend price of \$5.11 per hundredweight for 3.5 percent milk, 29 cents higher than the \$4.82 price received by producers in April 1967. Producers received a higher blend price in 68 markets, the same in one market, and a lower price in the remaining two markets. Class prices, blend prices, and associated butterfat differentials, by markets are reported on table 1.

Fluid Milk Sales. Total in-area fluid milk sales for April 1968 in 69 marketing areas are estimated to be about 2.2 billion pounds, 2.9 percent above such sales in April of last year. Complete March in-area sales for total fluid items, and for the four major fluid product groupings (whole milk, skim milk items, mixtures, and cream), are reported on table 6.

Filled and Imitation Milk Sales. Survey data of filled and imitation milk sales in Federal order markets, February, March, and April 1968 (See table 11).

YEAR TO DATE

Minimum Prices. The weighted average Class I price for the January-April period for the 71 markets was \$5.89, 12 cents above the \$5.77 for the same period in 1967. The 1968 weighted average blend price was \$5.22, 11 cents higher than the blend price of \$5.11 reported for the period in 1967 (See table 2).

Producer Deliveries and Deliveries Used in Class I. Milk deliveries and deliveries used in Class I are reported for individual markets on table 5. In the first four months of this year, compared to the same period in 1967, producer deliveries for the 71 markets were down 0.4 percent, and deliveries used in Class I were up 0.8 percent. 1/ Data for the 71 markets and for all markets are summarized below:

Producer Milk Deliveries and Deliveries Used in Class I, January-April

Markets	Producer Deliveries			Deliveries used in Class I		
	: 1968		Change from 1967 2/	: 1968		Change from 1967 2/
	: 1,000 lb.	: 1,000 lb.	: Percent	: 1,000 lb.	: 1,000 lb.	: Percent
71 Comparable markets 3/	: 17,135,130	-71,453	- 0.4	: 11,172,978	+92,070	+ 0.8
2 Non-comparable markets 4/	: 1,297,698	+245,940		: 792,831	+151,462

1/ Volumes include 29-day totals for February 1968. The percentage changes are based on adjusted 28-day totals for February 1968 to make them comparable to 1967.

2/ Markets under regulation on January 1, 1967, and which have had no significant marketing area expansions. Excludes Massachusetts-R.I.-N.H., Sioux City, and Minnesota-North Dakota.

3/ Class I plus Class II = 1,876,383 thousand pounds in 1968 and 1,966,735 thousand pounds in 1967; utilization = 55% in 1968 and 52% in 1967.

4/ Fewer than three handlers.

5/ Excludes Sioux City.

* CORRECTION: February figure should have been 11,990.5.

1/ Data for February 1968 adjusted to a 28-day basis before computing percentage changes.

2/ Plain, flavored, and fluid equivalent of concentrated.

3/ Plain, fortified, and flavored skim and part skim milk, buttermilk and cultured specialties.

4/ Sales for marketing area as defined after the 1967 amendment.

5/ Small amount of sales estimated.

MAJOR ORDER ACTIONS, APRIL 1968

Amendments:

6 Markets - April 1 (33 FR 5198, 3/30/68).

Cincinnati	Louisville-Lex.-Evans.
Columbus	Miami Valley
Indianapolis	Tri-State

Amendment changes the Class I butterfat differentials in the Cincinnati, Columbus, and Louisville-Lexington-Evansville orders to 0.120 times the Chicago butter price for the preceding month. Action revises the seasonal incentive payment plan (Louisville plan) in each of the above orders. Amendment establishes the average of the monthly basic formula prices for the preceding calendar year as the basis for computing the rate of "take-out" for each month of April through July. The following percentages of each average price would represent the "take-out" rate in the respective markets: Cincinnati, Miami Valley, Tri-State, and Columbus, six percent; Indianapolis, eight percent; and, Louisville-Lexington-Evansville, ten percent. The maximum deduction would be 40 cents in Louisville-Lexington-Evansville, 30 cents in Indianapolis, and 25 cents in the four other orders. The "pay-back" provisions in the Tri-State, Cincinnati, Miami Valley, and Columbus orders are revised providing for one-fourth of the total amount deducted to be paid back during each of the months of September through December.

North Texas and Oklahoma Metropolitan - April 1 (33 FR 5200, 3/30/68). Amendment deletes the supply-demand adjustors to the Class I prices in the North Texas and Oklahoma Metropolitan orders. The Red River Valley, Austin-Waco, Corpus Christi, Central West Texas, Lubbock-Plainview, and San Antonio markets are similarly affected since their prices are based on either the North Texas or Oklahoma Metropolitan Class I price.

Northwestern Ohio - April 1 (33 FR 4913, 3/23/68). Action establishes the Class I price differential at \$1.25. The emergency 20-cent Class I price increase and minimum basic formula price of \$4.05 are continued for the month of April 1968. Action reduces the Class I butterfat differential from 0.127 to 0.120 times the Chicago butter price.

Wichita - April 1 (33 FR 5200, 3/30/68). This amendment deletes the supply-demand adjustor to the Class I price from the Wichita order.

Suspensions:

Kansas City - April 1 (33 FR 5086, 3/28/68). Action suspends the supply-demand adjustor to the Class I price for the months of April and May 1968.

Mississippi - April 1 (33 FR 5087, 3/28/68). Action suspends the supply-demand adjustor to the Class I price for the months of April, May, and June 1968.

New Orleans - April 1 (33 FR 5086, 3/28/68). Action suspends the supply-demand adjustor to the Class I price for the months of April, May, and June 1968.

St. Louis - April 1 (33 FR 5199, 3/30/68). Action suspends the supply-demand adjustor to the Class I price for the months of April and May 1968. The Ozarks, Paducah, and Southern Illinois markets are similarly affected since their prices are based on the St. Louis Class I price.

Tampa Bay - April 20 (33 FR 6096, 4/20/68). This order suspends, for the months of April through July 1968, the provisions that limit the quantity of producer milk that may be diverted to nonpool plants by cooperatives and proprietary handlers.

Wichita - April 1 (33 FR 5039, 3/27/68). From the effective date of this order through November 1968, action suspends all provisions of the order relating to the seasonal incentive payment plan (Louisville plan).
